

## Hapa Maintenance Service

Hapa offers preventive maintenance services and agreements tailored to your production needs. When you treat your system to a Hapa maintenance service, you can be assured that you will be given top-level professional care from Hapa system specialists, including expert maintenance tips and advice. Keep your printing system performing at its best with our fast and reliable services.

### **YOUR ADVANTAGES**

- Reduce operating costs by an estimated 10–15%
- Minimize production stoppages
- Controlled and planned downtimes
- Reduce spare parts inventory (improve stock management)
- Achieve the best possible print quality
- Preserve machine performance and value

## SCOPE OF PREVENTIVE MAINTENANCE

- Overall system checkup
- Cleaning
- Replacement of standard maintenance parts
- Software adjustments and fine tuning
- Print-quality tests
- System reboot
- Professional machine assessment
- Preventive recommendations (for short- and long-term)

## ADVICE AND PLANNING

- This service, designed to enhance the life-cycle of your system, is recommended either on an annual or a semi-annual basis.
- Additional options, including service-level agreements, can be customized to best benefit your operations.
- Contact us today for your personal quote and to learn which other value-adding products and services from Hapa you can benefit from.

## CONTACT

Our reception (phone +41 43 399 32 00) will be happy to forward you to the appropriate specialist. You may also contact us at [services@hapa.ch](mailto:services@hapa.ch)
