

## Hapa Advanced Training

Experienced Hapa technicians provide both theoretical and hands-on training in order to assure long term quality and profitability in your production. This Advanced Training is one of several training courses offered by Hapa for **operators, technicians and maintenance staff**.

You choose the focus of the training, either mechanical or electrical. Our experts, who are familiar with your daily business, will bring your employees to a new level of valuable knowledge.

### YOUR BENEFITS

- Increase in productivity and lifecycle of your machine
- Scheduling of repair times is in your hands
- Optimal settings lead to less material wear and waste
- Maintenance by your own personell according to GMP
- Fast recognition and correction of small errors
- Efficient communication with Hapa Customer Service
- Minimalization of production downtimes

### GENERAL CONDITIONS

- Prerequisite: skills on the level of our Basic Training necessary
- Training at customer site or Hapa Training Center
- Maximum 4 participants per training
- Training languages English and German (other languages on request)
