

## Hapa Advanced Training

Experienced Hapa technicians provide both theoretical and hands-on training in order to assure long term quality and profitability in your production. This Advanced Training is one of several training courses offered by Hapa for **operators, technicians and maintenance staff**.

You choose the focus of the training, either mechanical or electrical. Our experts, who are familiar with your daily business, will bring your employees to a new level of valuable knowledge.

### **YOUR BENEFITS**

- Increase in productivity and lifecycle of your machine
- Scheduling of repair times is in your hands
- Optimal settings lead to less material wear and waste
- Maintenance by your own personell according to GMP
- Fast recognition and correction of small errors
- Efficient communication with Hapa Customer Service
- Minimalization of production downtimes

### **GENERAL CONDITIONS**

- Prerequisite: skills on the level of our Basic Training necessary
- Training at customer site or Hapa Training Center
- Maximum 4 participants per training
- Training languages English and German (other languages on request)

\*depends on machine type

\*\*Note (for Hapa G2 printers only): The Hapa Advanced and Expert Training sessions refer to and will use the Hapa-developed software Winsoftstep for analyzing tasks to troubleshoot a malfunctioning Hapa printer. The software is not included in the training course fee, but can be bought with the SKU 100-99-91-980B.

This training can also be booked with an **electrical focus**.

Haven't found the perfect training yet? We also offer a Basic Training, Expert Training and Special Trainings. Contact us at [training@hapa.ch](mailto:training@hapa.ch) and we will give you a quote based on your own machines or customize our training to your individual needs.
